MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********************************NOTICE**********************************
The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $21.00 in the U.S. and $26.25 to foreign addresses. The cost of a single issue is $3.25 U.S. and $4.10 foreign.
****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Narrative analyses highlight each month's most important developments. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. The full-time equivalency for the current period is the sum of the straight time hours worked during the 2-week report period by ceiling-related employees divided by 160; this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORK FORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORKFORCE STATISTICS
EMPLOYMENT ANALYSIS - MAY 1982

Executive, Legislative, and Judicial Branches

The Federal civilian workforce totaled 2,879,751 as of May 31, 1982. This represents an increase of 18,740 employees from April. The number of full-time employees with permanent appointments decreased 1,654 to 2,424,289. Full-time employees with temporary and indefinite appointments numbered 201,558 (+18,421). Part-time employment decreased 1,359 in May to 202,637 and intermittent employment increased 3,332 to 51,267.

Executive Branch employment stood at 2,824,552 at the end of May (+18,556), including 666,100 employees in the independent U. S. Postal Service and 25,527 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunities Program. Among Executive Branch departments, Agriculture reported the largest increase in employment (+7,130), reflecting seasonal hiring at the Forest Service (+6,424). The Department of Defense (+6,392), Interior (+4,626) -- influenced by seasonal employment in the National Park Service (+2,651)--, Postal Service ((+2,466) and Veterans Administration (+1,400) also were among those reporting increases. The largest decreases were reported by Treasury (-4,135, as tax season activities declined at the Internal Revenue Service, -4,044), and the Tennessee Valley Authority (-2,039).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,391,694, a decrease of 1,646 from April. Defense reported the largest increase of 1,272. The largest decrease was reported by Treasury (-2,850).

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 180,651 -- an increase of 18,236 from April. Again seasonal hiring was a major influence in Agriculture (+5,943) and Interior (+4,008) employment. Defense also reported an increase of 5,218 in this category . The Tennessee Valley Authority had the largest decrease of 1,864.

Part-time (regularly scheduled) employment in the Executive Branch stood at 201,667 (-1,366), with more than half of the total employed by the U.S. Postal Service -- 108,553. At the same time, the Postal Service had the largest increase (+689) while Treasury had the largest decrease (-802).

The number of intermittent employees in the Executive Branch increased by 3,332 to 50,540 in May. The Postal Service increased the most (+1,580) and decreases were greatest in Treasury (-599).

Employment in the competitive service totaled 1,706,895 in May (+6,728). There were 1,172,856 employees in the excepted service (+12,012). The number of employees with permanent appointments decreased by 2,833 in the competitive service and by 43 in the excepted service. The number of employees with temporary and indefinite appointments increased in the competitive service by 9,561 and decreased in the excepted service by 12,055.

Legislative Branch employment increased in May to 39,554 (+162). Judicial Branch employment increased to 15,645 (+22).

Employment by Geographic Area

Federal civilian employment in the United States totaled 2,749,053 in May (+18,760). Employment in the Washington D.C. metropolitan area increased 2,310 to 348,172.

Federal civilian employment overseas was 130,698 (-20), of which 69,709 were U. S. citizens and 60,989 were non-U.S. citizens.

Payrolls

Federal civilian payrolls totaled $5,565,409,000 in May. Of this amount, $5,371,074,000 was paid to employees in the United States, including $836,761,000 in the Washington, D.C., metropolitan area.

TURNOVER ANALYSIS
MAY 1982

Accessions

Accessions to the Federal civilian workforce in May totaled 55,636 for an accession rate of 2.0. There were 45,669 new hires reported, for a rate of 1.6. The remaining accessions included 2,056 transfers and 7,911 restorations and returns to duty. In May, accessions to the competitive service totaled 29,479 and accessions to the excepted service totaled 26,157.

Defense reported 17,161 accessions -- 31.0 percent of the Executive Branch total. Among other Executive Branch departments and independent agencies, Agriculture (8,461), Veterans Administration (6,710), Interior (5,644), U.S. Postal (3,816), and Health and Human Services (2,031) reported a number of accessions.

New hire accessions in Executive Branch departments and agencies totaled 45,548 in May. The Defense Department hired 14,682 employees while Veterans Administration also reported 5,816 new hire accessions.

New hires to the competitive service totaled 23,363 in the Executive Branch. Defense hired 11,581 employees to the competitive service. The Veterans Administration (3,659) also hired significant numbers of employees to the competitive service. New hires to the excepted service totaled 22,185 in the Executive Branch, with Agriculture (6,937), Interior (3,430), Postal Service (3,251), Defense (3,101), and Veterans Administration (2,157) accounting for most of the hiring.

Accessions overseas totaled 2,199 of which 1,527 were U. S. citizens. Defense accounted for 1,534 of the accessions. New hires overseas totaled 1,982, including 1,365 by Defense, 292 by the Panama Canal Commission and 96 by the State Department.

Separations

Separations from the Federal civilian workforce totaled 39,927 in May for a separation rate of 1.41. Quits numbered 13,864 for a rate of 0.49. Defense reported 9,255 separations and Treasury (8,766), Veterans Administration (5,139), Tennessee Valley Authority (2,934), Postal Service (2,746), Agriculture (2,738) and Interior (1,745) and Health and Human Services (1,406) also reported large numbers of separations.

The largest number of quits were reported by Defense (3,929), Veterans Administration (2,731), and Agriculture (1,707).

There were 1,734 separations overseas. The Army reported 913 separations and the Air Force reported 249 separations overseas in May.

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********************************NOTICE*************************************
The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $21.00 in the U.S. and $26.25 to foreign addresses. The cost of a single issue is $3.25 U.S. and $4.10 foreign.
****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted bv each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Narrative analyses highlight each month's most important developments. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminati[illegible]ductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, [illegible]d d[illegible]cements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

The *Monthly Release* presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Narrative analyses highlight each month's most important developments. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORKFORCE STATISTICS
EMPLOYMENT ANALYSIS - JULY 1982

Executive, Legislative, and Judicial Branches

The Federal civilian workforce totaled 2,926,391 as of July 31, 1982. This represents an increase of 9,240 employees from June. The number of full-time employees with permanent appointments increased 1,348, to 2,418,951. Full-time employees with temporary and indefinite appointments numbered 260,782 (+9,697). Part-time employment decreased 1,330 in July to 195,973 and intermittent employment decreased 475 to 50,685.

Executive Branch employment stood at 2,869,620 at the end of July (+8,812), including 668,463 employees in the independent U. S. Postal Service and 41,333 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunities Program. Among Executive Branch departments, Defense reported the largest increase in employment (+5,217); Interior (+1,143) -- influenced by seasonal employment in the National Park Service (+699) -- the Veterans Administration (+781) and Postal Service (+681) also were among those reporting increases. The largest decreases were reported by the Tennessee Valley Authority (-537), General Services Administration (-317) and the Office of Personnel Management (-121).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,386,232, an increase of 1,300 from June. The State (+1,032) and Justice (+423) Departments reported the largest increases. The largest decreases were in Health and Human Services (-437) and General Services Administration (-367).

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 238,449 -- an increase of 9,312 from June. Defense reported the largest increase of 4,973. Again seasonal hiring was a major influence in Agriculture (+1,172) employment. The Veterans Administration also reported an increase in this category (+1,162). The Tennessee Valley Authority had the largest decrease of 473.

Part-time (regularly scheduled) employment in the Executive Branch stood at 195,111 (-1,294), with more than half of the total employed by the U.S. Postal Service -- 108,103. Health and Human Services had the largest increase (+134) while the largest decreases were in Agriculture (-390), Veterans Administration (-194) and the Postal Service (-111).

The number of intermittent employees in the Executive Branch decreased by 506 to 49,828 in July. The Postal Service increased the most (+761) and decreases were greatest in Agriculture (-1,627).

Employment in the competitive service totaled 1,731,762 in July (+3,974). There were 1,194,629 employees in the excepted service (+5,266). The number of employees with permanent appointments decreased by 1,570 in the competitive service and increased by 1,939 in the excepted service. The number of employees with temporary and indefinite appointments increased in the competitive service by 5,544 and by 3,327 in the excepted service.

Legislative Branch employment increased in July to 40,923 (+335). Judicial Branch employment increased to 15,848 (+93).

Employment by Geographic Area

Federal civilian employment in the United States totaled 2,794,150 in July (+7,361). Employment in the Washington D.C. metropolitan area increased 593 to 354,454.

Federal civilian employment overseas was 132,241 (+1,879), of which 70,859 were U. S. citizens and 61,382 were non-U.S. citizens.

Payrolls

Federal civilian payrolls totaled $5,404,097,000 in July. Of this amount, $5,196,929,000 was paid to employees in the United States, including $774,908,000 in the Washington, D.C., metropolitan area.

TURNOVER ANALYSIS
JULY 1982

Accessions

Accessions to the Federal civilian workforce in July totaled 55,478 for an accession rate of 1.90. There were 45,404 new hires reported, for a rate of 1.60. The remaining accessions included 1,786 transfers and 8,288 restorations and returns to duty. In July, accessions to the competitive service totaled 25,785 and accessions to the excepted service totaled 29,693.

Defense reported 19,527 accessions -- 35.3 percent of the Executive Branch total. Among other Executive Branch departments and independent agencies, Veterans Administration (10,038), the U.S. Postal Service (5,139), Treasury (4,317), Agriculture (3,561) and Interior (3,322) reported a significant number of accessions.

New hire accessions in Executive Branch departments and agencies totaled 45,266 in July. The Defense Department hired 16,967 employees while Veterans Administration (8,997), Agriculture (3,107), Health and Human Services (2,545) and Interior (2,189) also reported a significant number of new hire accessions.

New hires to the competitive service totaled 20,253 in the Executive Branch. Defense reported 10,187 new hires to the competitive service. The Veterans Administration (2,939), Health and Human Services (1,701) and Interior (744) also hired significant numbers of employees to the competitive service. New hires to the excepted service totaled 25,013 in the Executive Branch, with Defense (6,780), Veterans Administration (6,058), Postal Service (4,712), Agriculture (2,398) and Interior (1,445) accounting for most of the hiring.

Accessions overseas totaled 3,836 of which 3,214 were U. S. citizens. Defense accounted for 3,237 of the accessions. New hires overseas totaled 3,495, including 2,969 by Defense, 254 by the Panama Canal Commission and 86 by the State Department.

Separations

Separations from the Federal civilian workforce totaled 47,460 in July for a separation rate of 1.60. Quits numbered 15,333 for a rate of 0.50. Defense reported 14,979 separations and Veterans Administration (9,910), Treasury (4,663) and Interior (3,308) also reported large numbers of separations.

The largest number of quits were reported by Defense (6,024) and Veterans Administration (3,002).

There were 3,365 separations overseas. The Army reported 1,064 separations and the Air Force reported 1,402 separations overseas in July.

MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

***********************************NOTICE***************************************
The *Monthly Release* is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $21.00 in the U.S. and $26.25 to foreign addresses. The cost of a single issue is $3.25 U.S. and $4.10 foreign.
****

The *Monthly Release* presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Narrative analyses highlight each month's most important developments. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

SECTION II Profile of College-Educated Federal Civilian Employees 99

SECTION III Federal Civilian Work Years and Personnel Costs in the Executive Branch -- Fiscal Years 1980 and 1981 105

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

Agency	Principal Component/Occupation with Excepted Service Employees	Approx. % of Agency Employees in Excepted Service
General Accounting Office	-----	100%

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The narrative analyses and personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

MONTHLY RELEASE OF FEDERAL CIVILIAN WORKFORCE STATISTICS
EMPLOYMENT ANALYSIS - AUGUST 1982

Executive, Legislative, and Judicial Branches

The Federal civilian workforce totaled 2,908,025 as of August 31, 1982. This represents a decrease of 18,384 employees from July. The number of full-time employees with permanent appointments increased 2,489 to 2,421,488. Full-time employees with temporary and indefinite appointments numbered 244,279 (-16,546). Part-time employment decreased 2,277 in August to 193,619 and intermittent employment decreased 2,050 to 48,639.

Executive Branch employment stood at 2,851,682 at the end of August (-17,954), including 666,728 employees in the independent U. S. Postal Service and 32,273 employees exempt from personnel controls in Youth Programs and the Worker Trainee Opportunities Program. Among Executive Branch departments, the Tennessee Valley Authority reported the largest increase in employment (+652). The largest decreases were reported by Defense (-7,156), Veterans Administration (-3,297), Treasury (-1,950), Postal Service (-1,735) and Interior (-1,276).

The number of full-time employees with permanent appointments in the Executive Branch totaled 2,388,611, an increase of 2,331 from July. Defense (+3,785) reported the largest increase. The largest decreases were in the U.S. Postal Service (-205) and General Services Administration (-172).

Full-time employees with temporary or indefinite appointments in the Executive Branch totaled 222,498 -- a decrease of 15,992 from July. The Tennessee Valley Authority reported the largest increase of 636. Defense had the largest decrease of 8,748.

Part-time (regularly scheduled) employment in the Executive Branch stood at 192,771 (-2,263), with more than half of the total employed by the U.S. Postal Service -- 107,921. Housing and Urban Development (+264) and Health and Human Services (+206) had the largest increases, while the largest decrease was in Defense (1,861).

The number of intermittent employees in the Executive Branch decreased by 2,030 to 47,802 in August. The most, though slight, increase was in the Veterans Administration (+98) and decreases were greatest in Defense (-332).

Employment in the competitive service totaled 1,719,277 in August (-12,386). There were 1,188,748 employees in the excepted service (-5,998). The number of employees with permanent appointments decreased by 3,853 in the competitive service and increased by 4,381 in the excepted service. The number of employees with temporary and indefinite appointments decreased in the competitive service by 8,533 and by 10,379 in the excepted service.

Legislative Branch employment decreased in August to 40,360 (-565). Judicial Branch employment increased to 15,983 (+135).

SECTION II

SPECIAL FEATURE TABLES AND NARRATIVE

COLLEGE-EDUCATED FEDERAL EMPLOYEES

This section contains statistics on College-educated Federal Civilian Employees

PROFILE OF COLLEGE-EDUCATED FEDERAL CIVILIAN EMPLOYEES

by Christine E. Steele

Overview

In December 1981, there were 1,398,075 Federal civilian employees in Executive Branch agencies (excluding the U.S. Postal Service) with full-time work schedules and permanent tenure in white-collar occupations; one in three was college-educated with a bachelor's degree or more education. The 472,560 college-educated workers included 21,845 (4.6 percent) with doctorate degrees; 95,262 (20.2 percent) with master's degrees or more education but not doctorates; and 355,453 (75.2 percent) with bachelor's degrees or more education but not master's or doctorates. Table 1 illustrates the distribution of Federal employees by specific education levels. Table 2 compares college-educated employment to total employment by the three education level groups, race or national origin, and sex.

Race, National Origin, Sex

Data by race or national origin is also displayed on Table 2 for the three largest groups of Whites, Blacks, and Hispanics. The "Other" race or national origin group includes American Indians, Alaska Natives, Asians or Pacific Islanders, and those employees with unrecorded race or national origin. College-educated workers represented 34 precent of the overall white-collar workforce in December 1981; the college-educated percentage was 37 percent for Whites, 17 percent for Blacks, 24 percent for Hispanics, and 33 percent for Others. Advanced degrees were held by 25 percent of college-educated workers--25 percent of Whites, 19 percent of Blacks, 18 percent of Hispanics, and 26 percent of Others.

Men comprised 55 percent of the full-time permanent white-collar Executive Branch workers but 78 percent of the college-educated workforce, 77 percent of bachelor's degree, 80 percent of master's degree, and 91 percent of doctorate employment. Only 16 percent of the women are college-educated compared to 48 percent of the men. Women comprised 22 percent of the overall college-educated workforce; however, women represented 45 percent of college-educated Blacks but only 19 percent of college-educated Whites.

White-Collar Occupations

Federal civilian employees with college degrees worked in most of the white-collar occuaptions but primarily in professional and administrative occupations as shown on the following Table 3. Over half (54 percent) of the college-educated employees worked in professional occupations and more than a third (36 percent) worked in administrative occupations. Virtually all doctorates were in professional and administrative occupations (99.4 percent), compared to 95.8 percent of master's degree and 87.7 percent of bachelor's degree employees.

Table 3 also displays the twelve occupations that have 10,000 or more college-educated workers; of these selected occupations, teachers (education and vocational training) most frequently had advanced degrees with 5,635 (49 percent) having master's degrees and 531 (5 percent) having doctorates.

College-educated workers come from a wide variety of academic disciplines (the major field of study recorded for employee's highest degree). Table 2 also lists the thirteen academic discipline groups with 10,000 or more Federal civilian employees. Of these academic discipline groups, Public Affairs and Services had the highest percentage with master's degrees (46 percent). Doctorates were most prevalent in Physical Sciences (20 percent), Biological Sciences (18 percent), and Psychology (17 percent).

Some occupations, such as attorneys, nurses, teachers and engineers, reflect specific academic preparation. Most accountants and internal revenue agents had business and management backgrounds. Other occupations reflect a wide variety of educational backgrounds, including occupations covering Miscellaneous Administration and Programs, Social Insurance Administration, Computer Specialists, and Criminal Investigating.

Data Source

The 472,560 full-time permanent college-educated white-collar Executive Branch Federal civilian employees as of December 31, 1981 were extracted from our Central Personnel Data File (CPDF) which includes all Executive Branch agencies except for the White House Office, Office of the Vice President, Board of Governors of the Federal Reserve System, Tennessee Valley Authority, U.S. Postal Service, Postal Rate Commission, Central Intelligence Agency, National Security Agency, and foreign nationals employed overseas. Only 5,564 (one percent) of full-time permanent blue-collar workers in the Executive Branch have college degrees so this report was limited to white-collar employment. Education data were initially collected on Federal civilian employees in 1974; since then, such data are collected for permanent (career and career-conditional) Federal civilian employees when they are hired; since updates to the data are provided by agencies only on an optional basis, these data do not necessarily reflect the latest levels of educational attainment for all employees. Education level data are missing from about seven percent of employee records in CPDF.

Table 1 - December 31, 1981 Full-Time Permanent College-Educated White-Collar Federal Civilian Employment in the Executive Branch (excluding U.S. Postal Service) By Education Level

Education Level	Definition	Employment

WORK YEARS AND PERSONNEL COSTS

This section contains information on Federal Civilian Work Years and Personnel Costs in the Executive Branch for Fiscal Year 1981

Federal Civilian Work Years and Personnel Costs in the Executive Branch for Fiscal Year 1981

by Mary Aileen McCarthy

Introduction

This article summarizes the results of the most recent annual Work Years and Personnel Costs Survey conducted by the Office of Personnel Management. Data for this survey was furnished in response to the Federal Personnel Manual Bulletin 298-41 by agencies with 100 or more employees. It should also be noted that the U. S. Postal Service has been included in this survey.

Basic Pay and Work Years

Basic work years include full-time permanent, full-time temporary, part-time, and intermittent employees; this accounts for 96.6 percent or 2,731,213 of total work years. The remaining 3.4 percent or 96,190 work years was a combination of overtime and holiday work years.

Total payroll was $70 billion during fiscal year 1981, including $58 billion for basic pay, $4 billion for premium pay, and $8 billion for benefit pay. Based on total work years the cost per work year was $24,746 consisting of $21,872 for direct pay (basic plus premium) and $2,873 for benefit pay.

Premium Pay

More than $3.9 billion was spent on premium pay in fiscal year 1981, an increase of 16.58 percent over the previous year. While most of this increase was due to the general raises in premium pay rates, a portion can be attributed to "Cash Awards" being reclassified during fiscal year 1980 as premium pay rather than as benefit pay.

Employee Benefits

The employee benefit pay includes direct costs to the agencies only and does not reflect payments from the general fund made through special appropriations (e.g., Government payments to cover unfunded retirement liability). Employee benefit pay amounted to $8.12 billion, an increase of $595 million or 7.9 percent from fiscal year 1980 to fiscal year 1981.

The following tables provide selected data from the Work Years and Personnel Cost survey.

The *Monthly Release* presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. The current month Office of Personnel Management press release of these data is included. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The personnel summaries in tables 1 and 17 present highlights and an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

AGENCIES MEETING PRESIDENT'S FEDERAL EMPLOYMENT GOAL

(WASHINGTON, D.C.)---At the end of Fiscal Year 1982, most federal agencies were ahead of schedule for achieving President Reagan's goal of reducing total non-defense and non-postal employment, according to figures released today by the U.S. Office of Personnel Management (OPM).

In the Fall of 1981, the President set a goal of reducing federal employment by 75,000 by the end of Fiscal Year 1984. Statistics through the end of Fiscal Year 1982 show that non-defense and non-postal executive branch federal employment has been reduced by 66,972 Full Time Equivalents(FTE), or 89.3% of the President's goal. The figures also show a 98,842 reduction in the number of non-defense and non-postal individuals employed by the executive branch since January, 1981.

"These latest figures represent the first time since World War II that federal employment totals have been reduced for two consecutive years and only the fourth reduction since World War I," Donald J. Devine, OPM director, said. "As The New York Times recently pointed out, 'the years of growth (in government employment) are over' as a result of widespread bi-partisan public demand for genuine reform in this area.

"These figures demonstrate the President's success in fulfilling his promise to reduce total federal employment by a very substantial amount during the fiscal years 1982, 83 and 84," Devine said. "Most of the executive branch agencies are

(more)

ahead of schedule and should have no trouble in reaching or even exceeding the President's goal.

"As the federal agency responible for implementing the President's goal, OPM will continue, as it has done since January, 1981, to insure that all reductions are achieved in the most compassionate, cost effective manner and in accordance with civil service rules and regulations. OPM data still show that almost 90 per cent of the reductions have been achieved through attrition, the most humane method. Programs to help those in need of assistance in obtaining positions in the private sector or elsewhere in the civil service will also continue and future reductions will, as has been the case heretofore, be achieved primarily through attrition with a minimum of involuntary separations," Devine said.

FTE Employment

The figures comparing Full Time Equivalent (FTE) work years at the end of September, 1982, with September, 1981, indicate a reduction of 66,972, well ahead of schedule for achieving the President's goal of a 75,000 reduction in non-defense, non-postal employment by the end of Fiscal Year 1984. Total on-board FTE work year employment for the non-defense and non-postal segments of the federal workforce through September, 1982, was 1,095,128, compared with a base figure of 1,162,100 during the previous fiscal year.

Under the FTE system, the number of paid hours worked by all subject-to-ceiling employees, including full-time, part-time and intermittent employees are added together and then expressed in terms of FTE work years. One work year is the number of hours worked in a year by an employee on a full-time work schedule (52 weeks of 40 hours, or 2,080 hours). Thus, one FTE work year can represent a single full-time employee in the Federal work force, or it could represent two part-time employees, each of whom works 20 hours a week. Since October 1, 1981, Executive Branch employment has been controlled by full-time equivalent, rather than end of year, ceilings.

On-board Employment

The end-of-fiscal-year statistics also show a substantial drop in total employment in the Federal government under the Reagan Administration. On-board, related-to-ceiling employment in the Executive Branch, excluding Defense Department (military functions) and Postal Service employees, stood at 1,140,853 at the end of September. This represents a sharp drop of more than 98,000 employees since the start of the Administration in January, 1981.

In comparing September-to-September changes, thus removing the transient effect of seasonal hires, there was decrease of more than 35,000 during Fiscal Year 1982 among non-defense and non-postal agencies. Increases in Defense Department employment, which are part of the Administration's plan for strengthening the nation's defense capabilities, offset some of the reduction, but there was still a net reduction in non-postal executive branch employment totals during the September-to-September period of 28,000. The attached table, showing executive branch (related-to-ceiling) civilian employment and work years as of

(more)

September 30, 1982, presents details showing the administration's success in reducing federal employment levels.

Total federal civilian employment, including executive, legislative and judicial branches, was 2,824,727, as of the end of September, a total reduction of 83,298 since the end of August and 35,641 from September, 1981. Executive branch employment was 2,769,944 as of the end of September, a total reduction of 81,738 since the end of August and 36,157 from September, 1981. These figures include 659,552 employees in the independent U.S. Postal Service and 989,633 civilian Defense Department employees. Executive Branch employees in programs such as Youth Programs and the Work Trainee Opportunity Program (which are exempt from ceiling controls) totaled 22,405, a drop of 9,868 from August and a decline of 4,530 from September, 1981.

Federal civilian payrolls for all branches of government totalled $5,779,350,000 in September. Of this amount, $5,571,809,000 was paid to employees in the United States and $860,296,000 was paid to employees in the Washington, D.C. metropolitan area.

SPECIAL FEATURE TABLES AND NARRATIVE

EMPLOYMENT AND SALARY STATISTICS

This section contains information on Full-time Civilian Employment and Salary Statistics as of March 31, 1982

Full-Time Civilian Employment and Salary Statistics
March 31, 1982

by Mary Aileen McCarthy

Employment Totals

There were 1,972,230 full-time non-postal Federal civilian employees covered by OPM's annual Salary and Wage Survey as of March 31, 1982. In the survey, employees under the General Schedule pay system comprised 71 percent (1,400,033, see table 32) and wage system employees accounted for 22.8 percent (448,814); the remaining 6.3 percent (123,383) were in other pay systems.

Major Geographic Areas and Average Salaries (See Table 32)

The average salary of all full-time employees as of March 31, 1982, was $22,839; average salaries for general schedule and wage systems employees were $22,975 and $20,550, respectively. The distribution of employment and salaries by geographic area showed the Washington, D.C., Metropolitan Area (SMSA), where most agencies have their headquarters managers, with 14.5 percent (286,935) of the employees and having an average salary of $27,701.

Ninety-seven percent (1,906,780) worked in the United States and had an average salary of $22,864; 2.4 percent worked in foreign countries and 1 percent in the U.S. Territories; average salaries in foreign countries and U.S. Territories were $22,277 and $19,845, respectively.

Employment and Salaries by States and D.C. (See Table 33)

California reported the largest employment (211,382), with the District of Columbia next (170,858); Vermont reported the smallest employment population (2,193). States having the highest and lowest overall average salaries were the District of Columbia ($27,893) and Kentucky ($20,095) respectively.

Data Source

The primary data source for this survey was the Central Personnel Data File (CPDF). Some agencies, not covered by CPDF, provided data in response to an Office of Personnel Management bulletin. The Central Intelligence Agency and the National Security Agency are exempt by law from reporting. Also excluded form this report were: the Board of Governors, Federal Reserve System, the Postal Rate Commission, and the U.S. Postal Service.

MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

************************************NOTICE**
The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $29.00 in the U.S. and $36.25 to foreign addresses. The cost of a single issue is $5.00 U.S. and $6.25 foreign.
****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. The current month Office of Personnel Management press release of these data is included. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The personnel summaries in tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

REDUCTION IN FEDERAL EMPLOYMENT BEING MET

(Washington, D.C.)—According to figures released today by the U.S. Office of Personnel Management (OPM), full-time equivalent (FTE) personnel totals for the first month of Fiscal Year 1983 show that most Federal agencies are running ahead of schedule for reaching President Reagan's goal of reducing total non-defense, non-postal employment in the Federal government.

October 1983 data showed that overall work years (Full-Time Equivalents) accumulated by the non-postal and non-defense agencies was 7.6 percent of the total FY 83 goal, which is below the 7.7 percent of the year elapsed so far. Agencies included in the Administration's 75,000 work year reduction goal by FY 84 continue to show a net reduction of over 66,000 work years from the starting 1982 base figure of 1,162,100. These agencies reported a total of 83,840 work years in October.

Under the Full-Time Equivalent system (FTE) the number of paid hours worked by all subject-to-ceiling employees, including full-time, part-time and intermittent employees are added together and then expressed in terms of FTE work years. One work year is the number of hours worked in a year by an employee on a full-time work schedule (52 weeks of 40 hours, or 2,080 hours). Thus, one FTE work year can represent a single full-time employee in the Federal work force, or it could represent two part-time employees, each of whom works 20 hours a week. Since October 1, 1981, Executive Branch employment has been controlled by full-time equivalent, rather than end of year, ceilings.

Total Employment ("Person Count")

In comparing October-to-October changes, which removes the transient effect of seasonal hires, in the past year there has been more than a 32,000 net decrease in total non-defense executive branch employment in the last year. Even with planned employment increases for strengthening Defense, the Executive Branch employment change including DOD (military functions) from October 1981 to October 1982 showed more than a 12,000 employee decrease.

Total Federal civilian employment, including Executive, Legislative, and Judicial Branches, was 2,848,713 at the end of October. Executive Branch employment stood at 2,794,278 at the end of October, an increase of 24,293 from September. This figure includes 663,487 (+3,935) employees in the independent U.S. Postal Service and 1,016,306 (+26,673) civilian Defense employees. Employees in programs such as Youth Programs and the Worker Trainee Opportunities Program (which are exempt from personnel ceiling controls) totaled 22,003 (-397).

Executive branch, excluding Postal Service, employment was 2,108,722; 20,788 more than September, but 56,316 less then January 1, 1981 when the Reagan Administration entered office. Excutive branch, excluding Postal Service and Defense military function civilian employment stood at 1,134,791; 6,082 less than September, but 104,924 less than January, 1981.

Federal civilian payrolls for all branches of government totaled $5,437,395,000 in October. Of this amount, $5,253,268,000 was paid to employees in the United States and $782,795,000 was paid to employees in the Washington, D.C. metropolitan area.

MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

**********************************NOTICE**************************************
The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $21.00 in the U.S. and $26.25 to foreign addresses. The cost of a single issue is $3.25 U.S. and $4.10 foreign.
****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. The current month Office of Personnel Management press release of these data is included. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

Dr. Philip A. D. Schneider
Assistant Director for Workforce Information
Compliance and Investigations Group

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(o)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitiva service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The personnel summaries in tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

AGENCIES CONTINUE TO SHOW NET REDUCTIONS IN EMPLOYMENT

(Washington, D.C.)---Data released by the U.S. Office of Personnel Management today, covering the second month of Fiscal Year 1983, indicate that most Federal agencies are within their fiscal year estimates for controlled related-to-ceiling employment.

November 1982 data showed that overall work years accumulated by the non-postal and non-Defense agencies was 15.1 percent which is below the 15.4 percent of the year elapsed so far. Agencies included in the Administration's 75,000 work year FY 1984 reduction goal continue to show a net reduction of over 68,000 work years from the starting 1982 base figure of 1,162,100. These agencies reported a total of 167,207 work years in November.

Under the Full-Time Equivalent system (FTE) the number of paid hours worked by all subject-to-ceiling employees, including full-time, part-time and intermittent employees are added together and then expressed in terms of FTE work years. One work year is the number of hours worked in a year by an employee on a full-time work schedule (52 weeks of 40 hours, or 2,080 hours). Thus, one FTE work year can represent two part-time employees, each of whom works 20 hours a week. Since October 1, 1981, Executive Branch employment has been controlled by full-time equivalent, rather than end of year, ceilings.

In comparing November to November changes in total employment, which removes the transient effect of seasonal hires, in the past year there has been more than a 21,000 net decrease in total non-defense executive branch employment. On-board related-to-ceiling employment strength for the non-postal and non-defense executive branch agencies was 1,129,701 at the end of November. This represents a decrease of the Federal civilian work force of 110,014 since the start of the Reagan Administration (January 1981).

(more)

Total Federal civilian employment, including Executive, Legislative, and Judicial Branches, was 2,853,863 at the end of November (+5,269 since the end of October). Executive Branch employment stood at 2,799,759 at the end of November, an increase of 5,600 from October. This figure includes 665,650 (+2,163) employees in the independent U.S. Postal Service and 1,023,730 (+7,424) civilian Defense employees. Employees in programs such as Youth Programs and the Worker Trainee Opporutnities Program (which are exempt from personnel ceiling controls) totaled 23,302 (+1,326).

Federal civilian payrolls for all branches of government totaled $5,529,529,000 in November. Of this amount $5,320,609,000 was paid to employees in the United States and $804,296,000 was paid to employees in the Washington, D.C. metropolitan area.

MONTHLY RELEASE

FEDERAL CIVILIAN WORKFORCE STATISTICS

************************************NOTICE**

The Monthly Release is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The cost of a one year subscription is $29.00 in the U.S. and $36.25 to foreign addresses. The cost of a single issue is $5.00 U.S. and $6.25 foreign.

****

The Monthly Release presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. The current month Office of Personnel Management press release of these data is included. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief Workforce Analysis and Statistics Division. The manager for this report was Dr. Kay Monte-White of the Surveys and Information Branch, Ronnie H. Byers Chief. Additional information may be obtained from the Workforce Analysis and Statistics Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-632-5416.

SECTION II -- Special Feature Tables and Narrative 100

FEDERAL CIVILIAN EMPLOYMENT by State, Metropolitan Area and Agency 101

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency and the National Security Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

Positions

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and which has not been occupied for more than a year.

RELATED TO CEILING - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule A, excepted authority 213.3102(q)), and employees in the Worker Trainee Opportunity Program are excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) One of the work year estimates assigned to an agency defines the maximum cumulative number of hours that can be worked during the year by full-time employees with permanent appointments; the other is based on the maximum cumulative number of hours that can be worked by all employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under one of these related-to-ceiling categories. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; and (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include Vietnam Era Veterans serving under Veterans Readjustment Appointments, positions for which it is not practicable to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in this Monthly Release since both excepted service and SES data are reported together on the 113A monthly report.

The following table lists those agencies and bureaus with significant numbers of employees in the excepted service.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) serving under SES career appointments and SES non-career appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and tranfers. Separations include quits, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military sevice and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - any voluntary resignation or separation from a position.

As of January 1979 agencies were permitted to report data either as of (1) the last calendar day of the month, or (2) the end of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last calendar day of the month to meet assigned Office of Management and Budget (OMB) personnel ceilings.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" two months prior to the publication date on the cover. The personnel summaries in tables 1 and 17 present highlights on an overview of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency, and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment data for the Washington, D.C. Standard Metropolitan Statistical Area (SMSA). The Washington, D.C. SMSA includes the District of Columbia; Arlington, Fairfax, Loudoun, and Prince William Counties, and the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Charles, Montgomery, and Prince Georges Counties in Maryland.

DECEMBER FEDERAL EMPLOYMENT FIGURES SHOW AGENCIES MEETING REDUCTION TARGETS

(Washington, D.C.)---Federal civilian employment data released today by the U.S. Office of Personnel Management showed most agencies "on target" for achieving employment reductions promised by President Reagan in September, 1981. The President set a goal of reducing Federal civilian employment in non-Defense agencies by 75,000 full-time equivalents (FTEs) over the period FY 1982-84. At the end of the first quarter of FY 1983, agencies had accumulated 22.7% of FTE work years alloted for the year, with 23.1% of the year elapsed.

Agencies covered by the employment reduction goal show a total net reduction of more than 69,000 work years from the starting 1982 base figure of 1,163,100. These agencies reported a total of 250,422 work years accumulated during the first quarter of FY 1983.

Under the full-time equivalent (FTE) system of personnel accounting, the number of paid hours worked by all subject-to-ceiling employees, including those who are classified as full-time, part-time and intermittent, are added together and then expressed in terms of FTE work years. One work year is the number of hours worked in a year by an employee on a full-time work schedule (52 weeks of 40 hours, or 2,080 hours). Thus, one FTE work year can represent two part-time employees, each of whom works 20 hours a week, four working ten hours a week, etc. Since October 1, 1981, Executive Branch employment has been controlled by FTE, rather than end-of-year, ceilings.

EXECUTIVE BRANCH "ON-BOARD" EMPLOYMENT

The "on-board" related-to-ceiling employment strength (the number of individuals on the payroll, rather than FTEs) for non-postal, non-Defense Executive Branch agencies was 1,126,610 at the end of December. This represents a decrease in this segment of the Federal civilian work force of 113,105 since the start of the Reagan Administration in January, 1981.

(More)

Comparing December-to-December changes, thus removing the effect of seasonal hires, these figures show a decline of more than 15,000 employees in non-defense agencies in the past year.

TOTAL EMPLOYMENT - ALL BRANCHES

Total Federal civilian employment, including Executive, Legislative and Judicial Branches, was 2,861,937 at the end of December (+8,061 since the end of November). Executive Branch employment stood at 2,807,604 at the end of December, an increase of 7,832 from the month previous. This figure includes 671,844 employees in the independent U.S. Postal Service (+6,192), and 1,027,375 civilian employees of the Department of Defense (+3,645). Employees in programs such as Youth Programs and the Worker Trainee Opportunity Program (which are exempt from personnel ceilings) totaled 23,732 (+432).

The payroll for Federal civilian employees in all branches of government totaled $5,694,149,000 in December. Of this amount, $5,479,073,000 was paid to employees in the United States and $808,840,000 was paid to employees in the Washington, D.C. metropolitan area.

EMPLOYMENT BY STATE, METROPOLITAN AREA AND AGENCY

This section contains information on Federal Civilian employment by State Metropolitan area and agency as of December 21, 1981

December 31, 1981 Federal Civilian Employment By State, Metropolitan Area, and Agency (and Changes During 1981)

by Christine E. Steele

Introduction

This article supplements the issue of "Annual Report of Employment by Geographic Area," December 31, 1980, which has been moved to a biennial schedule. Data are presented for agencies, states, and standard metropolitan statistical areas (SMSA's). The population coverage is somewhat less than the biennial survey because the 1980 data was adjusted to the same population coverage (only agencies participating in the Office of Personnel Management's Central Personnel Data File). The following statistical tables show total Federal civilian employment as of December 31, 1981 as well as the December 31, 1980 figures and the total and percentage changes. Readers are also cautioned that these CPDF data are not comparable to other data in this Monthly Release because of differences in population coverage and reporting requirements.

Data Source & Population Coverage

These data on active Federal civilian employment as of December 31, 1980 and 1981 (excluding employees with unspecified state) were extracted from the Central Personnel Data File (CPDF) which covers all Federal departments and agencies with the following exceptions: Members and employees of Congress, Commission on Security and Cooperation in Europe, Architect of the Capitol, Botanic Garden, Library of Congress, Congressional Budget Office, Copyright Royalty Tribunal, Office of Technology Assessment, Judicial Branch (except Administrative Office of the U.S. Courts), White House Office, Office of the Vice President, Board of Governors of the Federal Reserve System, Tennessee Valley Authority, Central Intelligence Agency, National Security Agency, and foreign nationals employed overseas. These excluded agencies affected several states. The Tennessee Valley Authority had significant employment in the following states as of December 31, 1980: 34,590 in Tennessee; 11,661 in Alabama; 3,172 in Mississippi; 2,915 in Kentucky; and 209 in all other states. Three of the excluded agencies has sizeable employment in the District of Columbia in December 1980: 5,315 in Library of Congress; 2,147 in Architect of the Capitol; and 1,520 in the Board of Governors of the Federal Reserve System.

Major Agencies

During 1981, Federal civilian employment included in this study declined by 10,702 or 0.4 percent to the 2,758,350 total as of December 31, 1981. Two-thirds of these employees worked in three major agencies: Defense Department (979,976 or 36 percent in December 1981), U.S. Postal Service (674,012 or 24 percent), and Veterans Administration (233,218 or 8 percent). During 1981, the Defense Department employment expanded by 41,819 or four percent, the U.S. Postal Service went up slightly by 6,775 or one percent, the Veterans Administration went down by 4,744 or two percent, and all other agencies combined declined sharply, down 54,552 or six percent. Two of the following statistical tables distribute Federal civilian employment as of December 31, 1981 for these three major agencies by states (Table 1) and standard metropolitan statistical areas (Table 3).

Major Geographic Areas

Most Federal civilian employees worked in the United States (2,687,041 or 97 percent in December 1981) while some worked in the U.S. territories (16,998 or 1 percent) and foreign countries (54,311 or 2 percent). During 1981, Federal civilian employment in the United States dropped by 18,094 or 0.7 percent although it went up in the U.S. territories (+1,019 or 6.4 percent due mostly to improved reporting by U.S. Postal Service) and foreign countries (+6,373 or 13.3 percent due mostly to Defense Department increases).

States

California had the largest Federal civilian employment at 302,429 in December 1981 followed by the District of Columbia with 190,733; New York with 152,141; Texas with 152,115; and Virginia with 150,377. The following Table 2 shows Federal civilian employment as of December 31, 1981 by state and the three largest agencies Defense Department, U.S. Postal Service, and Veterans Administration. During 1981, Federal civilian employment in the District of Columbia dropped by 10,577 or 5.3 percent and large employment declines also occurred in Maryland (-5,476 or 4.1 percent) and New York (-4,402 or 2.8 percent); in these three areas, the employment declines occurred primarily in the smaller agencies. The large employment gains in Virginia (+5,348 or 3.7 percent) and California (+3,608 or 1.2 percent) were due to increased Defense Department employment. See the state distribution table (Table 2) for Federal civilian employment as of December 31, 1980 and 1981 along with the total and percentage changes.

Metropolitan Areas

Each of the 323 standard metropolitan statistical areas (SMSA's) in the United States and Puerto Rico had Federal civilian employees from the Defense Department, U.S. Postal Service and miscellaneous other agencies. The Veterans Administration had employees in about half of the metropolitan areas. Most Federal civilian employees (2,301,930 or 83 percent in December 1981) worked within SMSA's. During 1981 there were 36 newly designated SMSA's which included 62,269 Federal civilian employees in December 1981; however, overall employment outside SMSA's dropped an additional 28,558 during 1981 while employment within SMSA's rose 17,856. Employment outside SMSA's covers small towns, rural areas and foreign countries. Since employment in foreign countries rose by 6,373, Federal civilian employment in the small towns and rural areas of the United States really dropped by 34,931 during 1981: Defense Department down 736, U.S. Postal Service down 7,328, Veterans Administration down 1,916 and all other agencies down 24,951. See the following two SMSA tables on December 1981 employment by the three major agencies and the changes since December 1980.

The following eight SMSA's (excluding newly designated SMSA's) each gained at least a thousand Federal civilian employees during 1981 due to hiring by the Defense Department: Honolulu, HA +1,174; Norfolk-Virginia Beach-Portsmouth, VA-NC +1,482; Oklahoma City, OK +1,735; Philadelphia, PA-NJ +1,361; Sacramento, CA +1,372; Salt Lake City-Ogden, UT +3,366; San Antonio, TX +1,712; and Vallejo-Fairfield-Napa, CA +1,388. The 1,427 apparent increase in San Juan, Puerto Rico is actually due to more accurate reporting by the U.S. Postal Service. The following four SMSA's each lost at least a thousand Federal civilian employees during 1981: Louisville, KY-IN down 2,411 (Veterans Administration down 1,115); New Orleans, LA down 1,496; New York, NY-NJ down 2,078; and Seattle-Everett, WA down 1,125.
